The Prayer Table

# Praying with our Children

As parents, how can you help your child enter into prayer?  
You can offer them a prayer table in your home where everything is  
accessible for them!

Little children love to be with God! It is a simple thing to set up and adds  
richness to your family's prayer life.

Items you will need to set up a prayer table at home:

- A **low table or stool** (where your child is able to reach and see everything on it)
  - A **tablecloth**
  - A **statue** or **picture** of Jesus, Mary, or the Holy Family
  - A **Holy Bible** (a real one – not children's version)
  - A **candle** to light when you read from the Holy Bible

**Prayer is, first of all, listening to God. Our task is that of creating the conditions for silence and reverence which will help the child to focus on and listen to God. We do this, first of all, by preparing an environment with a prayerful atmosphere.**

— Gianna Gobbi

# Level One

with the three to six year old child

# Beginnings...

Children begin the first few weeks of atrium with **Practical Life** materials, which include pouring, sorting, grace and courtesy, and care of the environment. Parents often wonder how “pouring beans” is connected to catechesis and that is an excellent question! Practical Life allows the child to acquire order, self-direction, definition of movement, silence, and independence. The child is able to concentrate which leads to enjoyment and prayer.

**The Model Altar** is one of the first presentations given in the atrium! A little altar and sacristy is set up in the atrium. This work helps us to learn the names and uses of the articles we find on the altar at Mass – the altar cloth, chalice, paten, cross, candles, corporal, purificator, cruets, and lavabo. After being presented the work, the children are invited to set up the altar whenever they would like as part of their work.

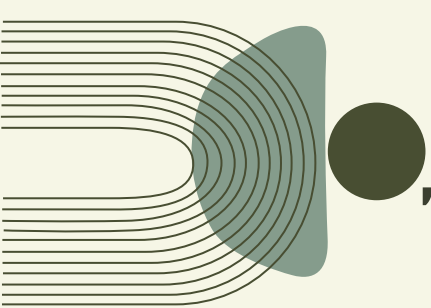

# Model Altar

As we learn the names and uses of these articles, we also begin to understand that Jesus is present at this Holy Meal at Mass.

# Level Two

with the six to nine year old child

# The History of the Kingdom of God

## La Fattuccia (1st)

This work is a long ribbon (50 meters) which shows the vastness of time and space. We see how God slowly and carefully has prepared so much for us.

We learn three principal moments in Sacred History: Creation, Redemption, and Parousia

## Blue Unity Strip (2nd)

This long illustrated chart has a mute strip with text which narrates the three moments (Creation, Redemption, and Parousia). We also continue to think about the “Blank Page” on the timeline, which is our time in history. We think about how we collaborate with God and build his Kingdom.

## History of Gifts (3rd)

We look at Sacred History through a new lens. We look at samplings (gifts) from the mineral world, the plant kingdom, the animal kingdom, and the world of our fellow humans.

And we think how God wanted to give us an even greater gift – Jesus!

All these gifts lead to Parousia.

Through this work, we come to understand that God wants us to receive abundant life and gives us all these gifts to enjoy, use wisely, transform, and share.

# Level Three

with the nine to twelve year old child

# The Plan of God

The **Plan of God** material is a new, large timeline! Through this work, we learn that from the beginning of time, God has had it in mind that covenant would unite all people and all things with God in a cosmic communion of love. There is a horizontal bridge between people through the work of humankind's hands (building, inventions, domestication of animals) that are passed on from age to age. There is a vertical bridge where God reaches down to us through Christ and Redemption. All work of union, peace, and love supports God's plan and prepares for Parousia (when God will be all in all). We can see on the timeline the moments of discord, division, and war that put little tiny breaks in the timeline of history. We are united to God through His Word and the Sacraments. This work is a continuation of what was learned in Level Two and lays the groundwork for future works in Level Three.
